Sir:

In response to the Office Action dated May 21, 2004, please amend the claims and reconsider allowance of the pending claims in light of the following remarks:

IN THE ABSTRACT

Please replace the abstract with the following:

"A fuel injector cleaner injection device for use with an automobile having an engine having a fuel injection system, a fuel

supply, and a fuel line extending between the fuel supply and fuel injection system, the device having a main housing defining an interior volume, and a reservoir. The main housing has a fuel in port which is connected to the fuel line toward to the fuel supply, a fuel out port which is connected to the fuel line toward the engine, and a cleaner in port in communication with the reservoir through an adjustment valve. During use of the automobile, fuel flows from the fuel supply through the fuel in port through the interior volume to the fuel out port into the engine. Fuel injector cleaner from the reservoir is introduced into the fuel flow through the cleaner in port, under the control of the adjustment valve."
